

FOR IMMEDIATE RELEASE

Infinite Grace Academy Designated Certified Autism Center

FORT WALTON BEACH (August 3, 2016) – Infinite Grace Autism Academy, Inc has undergone training to earn its certification of autism care from the International Board of Credentialing and Continuing Education Standards ([IBCCES](#)). As a Certified Autism Center, at least 100% of the Infinite Grace Autism Academy, Inc staff has completed a rigorous training process that will prepare them to work with individuals with autism.

Infinite Grace Autism Academy is one of the first Certified Autism Centers (CAC) in Florida. Since current studies indicate that up to 96% of children with autism spectrum disorder (ASD) demonstrate sensory difficulties, it is imperative to address these underlying issues. The prevalence of autism has increased by over 600% over the past two decades.

"Infinite Grace Autism Academy, Inc is excited to have become a Certified Autism Center through IBCCES," said Lynn Lambert, CEO. "We are committed to staying up-to-date in the field of autism through training our staff how to best meet the needs in assisting our clients with autism and other special needs."

IBCCES Certified Autism Centers must have 14 continuing education hours in autism training, pass a comprehensive autism competency exam and meet IBCCES Board approval.

"I strongly believe that creating professional partnerships that help care for those with autism and other sensory processing disorders improves the quality of care," Myron Pincomb, IBCCES Board Chairman, said. "Disparities in patient-provider communication lower patient self-efficacy and usage of preventive services. This training can help eliminate that."

IBCCES trains and certifies professionals who work in therapy centers, schools and specialized-service centers for greater autism awareness in 10 Areas of Autism Competency. On-site and online interactive training affords centers and schools knowledge and strategies for boosting access and exceeding physical, occupational and educational goals for children and adults on the autism spectrum.

IBCCES was formed in 2001 and is the leading credentialing organization for professionals in the field of Autism. IBCCES currently offers the Certified Autism Specialist®, Autism Certificate and the Certified Autism Center designations. IBCCES additionally released the Advanced Autism Certifications, which focus on ABA (Applied Behavior Analysis) Therapy. Autism, commonly known as ASD, is a neurodevelopmental disorder with a wide range of symptoms and impairment

levels. According to a 2010 study conducted by the Center for Disease Control, 1 in 68 children in the US have been diagnosed with ASD. It is five times more common among boys than girls.

About IBCCES

The International Board of Credentialing and Continuing Education Standards ([IBCCES](#)) was established in 2001 to meet the training and credentialing needs of professionals who work with individuals with special needs. IBCCES has since expanded into over 40 different countries with training centers and members across the globe.

Our Certified Autism Specialist, Board Certified Cognitive Specialist, and Certified Autism Center credentials were established with the highest standards in the industry. As a result, our programs have become the benchmark for those who work with cognitive disorders around the globe.

IBCCES created and hosts the annual International Symposium on Cognitive Research & Disorders. This global event brings together top neurologists, education leaders, and healthcare experts with a focus on research, innovation and collaboration.

About Infinite Grace Autism Academy, Inc

[Infinite Grace Autism Academy](#) opened its doors in 2006 with the purpose to offer a positive environment where children can grow and learn together, regardless of their individual differences. CEO, Lynn O. Lambert, M.S., CCC –SLP, provides an educational and therapeutic place where children learn to recognize others as individuals and to value everyone. IGAA is a safe, comfortable, and stimulating setting where all children are encouraged to progress through language and pre-reading, various cultures, music, art, character education, and technology to support activities of learning. Our education department is designed to enhance their educational skills as well as social and emotional development.
